Summary

Left being a general manager in the wholesale floral industry to enter the career field I have always wanted to be in, Web Development. I learned HTML and CSS in 7th grade and have loved programming and manipulating computers since then. A recent graduate of the UCF Coding Boot Camp, I am ready to put my skills to work. We learned the MERN stack, but for the final project dove into Angular and Typescript. Love it all. I am very passionate about developing sites and applications that can make a real impact on today's society.

Experience

General Manger

Pennock Floral Pennsauken
